- University of Texas
- MIT
- Texas Tech Health Sciences
- Los Angeles Public Library
- National Institute for South China Sea Studies
- Harvard Global Health Institute
- Non-profits, high schools, public and special libraries

RSS Testimonials

“This is a useful database for students and faculty alike, especially because it includes times series that often are difficult to find.”

Summing Up: Recommended.”

ALA, Choice Magazine

“RAND provides a great service by offering public policy documents from a variety of state, county, and municipal agencies. Having them all in one place is a boon to students and researchers.”

Paul Kauppila, San Jose State Reference and Instruction Librarian

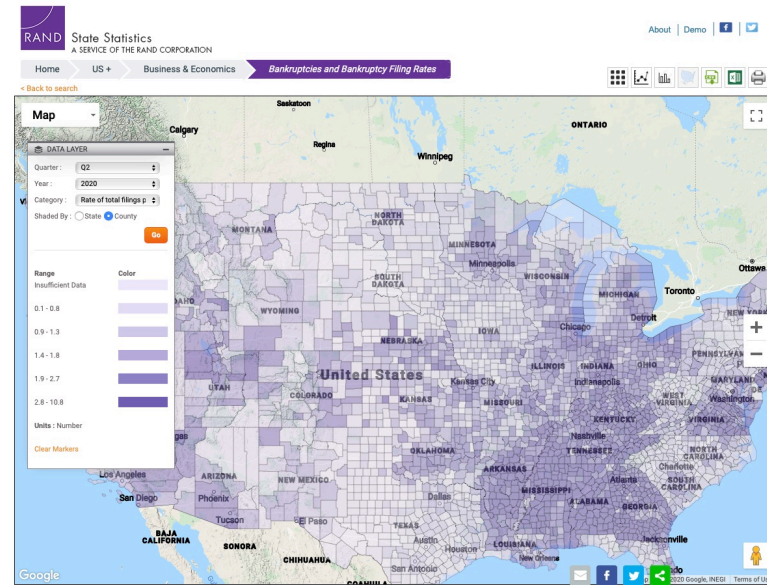

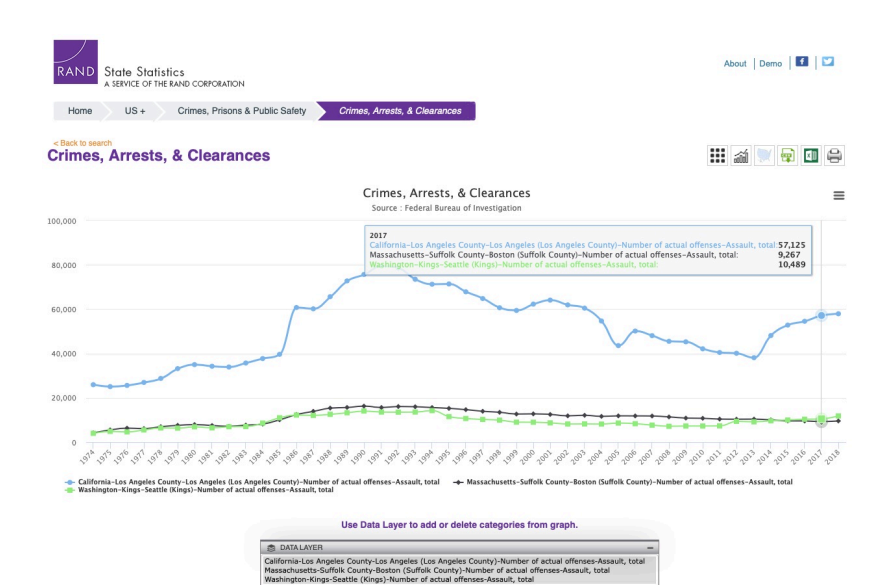

“RAND State Statistics provide information that is of value to the Santa Monica community. Ease in selection criteria and searchability function enhancements make it simple to get useful information.”

Susan Lamb, Santa Monica Public Library Librarian

RSS Focus

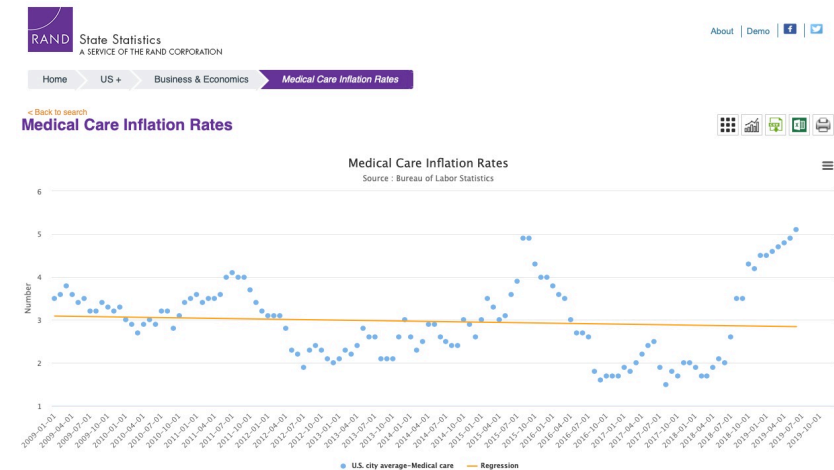

- > 200 databases
 - Nearly one DB updated per day—every day
- Socioeconomic
 - Demographics/population
 - Health care
 - Business and economics
 - Education
 - Public finance
- Time series
 - Median length >20 years
- High granularity, high detail
